PROFESSIONAL SUMMARY

Self-driven backend developer and aspiring full-stack engineer with a strong foundation in Python, Django, and RESTful APIs. Proven experience delivering scalable web applications, automation systems, and hybrid hardware-software integrations through freelance and academic projects. Passionate about building clean, functional UIs and integrating software with IoT and AI technologies. Currently pursuing a B.Sc. in Information Technology while actively working on client projects and self-initiated SaaS products.

Education

B.Sc. in Information Technology

Borg El Arab Technological University | September 2023 – Present

Experience & Projects

1. Freelance Developer – Honest Cloth Factory

Nov 2024 – Jan 2025 | Banha, Egypt

- Built a Django-based platform to manage production and inventory systems remotely.
- Developed a Tkinter desktop app to sync accessory and fabric data via RESTful APIs.
- Tech: Django, SQLite, Tkinter, REST API

2. Satisfaction Monitoring System (Graduation Project – Freelance)

May 2025 (2-day delivery)

- Integrated heart rate and SpO₂ tracking into an existing Flask facial recognition system.
- Designed a custom ESP32 PCB with the MAX30102 sensor for biometric input.
- Synced live data to Flask API for real-time emotion validation.
- Tech: Flask, MongoDB, ESP32, Arduino, MAX30102, REST API

3. E-Commerce Platform (SaaS Migration in Progress)

From Educational Project to Personal SaaS Product

- Developed a full-featured PHP & MySQL e-commerce site with wishlist, cart, filtering, and checkout.
- Currently migrating to a SaaS model using Django, React.js, PostgreSQL, and Shadcn UI.
- Tech: PHP, MySQL, Daisy UI, Tailwind, Django, React.js

4. Hand Gesture Communication Platform

Freelance – Science Faculty Graduation Project | June 2024 (14 Days)

- Built a Django app to translate hand gestures into text and videos for deaf-to-hearing communication.
- Integrated TensorFlow/Keras-based ML model and WebRTC for real-time interaction.
- Exposed APIs for Flutter mobile integration.
- Tech: Django, TensorFlow, Computer Vision, WebRTC, REST API

5. Attendance Management System

Borg El Arab Technological University | April 2024 – June 2024

- Developed a web-based attendance management system using Django, improving attendance tracking accuracy by 30%.
- Integrated real-time lecture details on screens in lecture halls, increasing student engagement and reducing missed classes by 15%.
- Technologies Used: Django, HTML, CSS, JavaScript, MySQL

6. Store Management System

Al Asel Group | January 2024 – February 2024

- Designed and implemented a system for inventory and order management, reducing order processing time by 50%.
- Integrated search functionalities and graphical sales data representation to provide better insights, leading to a 20% increase in sales efficiency.
- Technologies Used: Django, HTML, CSS, JavaScript, Chart.js, Google Charts

Skills

- **Languages:** C, Python, JavaScript, PHP
- **Frameworks:** Django (Templating-DRF), Flask, Bootstrap, Tailwind (Daisy UI), Vite-React.js (learning)
- **Databases:** MySQL, SQLite, PostgreSQL (learning)

- **Tools & Platforms:** Git, GitHub, Docker (learning)
- **Automation & Testing:** Appium, Selenium
- **AI & ML** TensorFlow/Keras, Computer Vision, WebRTC
- **Soft Skills:** Critical Thinking, Problem Solving, Agile Workflow

Certifications

- ALX Professional Foundation - [View Certificate](#)
- Web Programming with Python and JavaScript - HarvardX [View Certificate](#)
- Introduction to Computer Science - HarvardX [View Certificate](#)
